Dmitry Svoiski

dmitry@ds0.xyz
https://github.com/dsvoid

I am a **practiced full-stack programmer** and **Python hobbyist** looking for **remote-only** or **Montreal-based** dev work.

PERSONAL PROGRAMMING PROJECTS

dssb (Dmitry's Static Site Builder)   https://github.com/dsvoid/dssb
Python
- Static site builder with a focus on blogs, inspired by the Hugo static site builder
- Converts markdown files to HTML and supports custom templating
- Used for my personal website, https://ds0.xyz

Top Drawer   https://topdrawergame.com
Python (Flask, Flask-SocketIO), TypeScript (Vue)
- Social online drawing game for 3-8 players: users compete against each others' drawings in their web browser
- Uses websocket protocol to transfer data between its Python backend and Vue frontend
- In-person or remote code review available upon request
- Currently in public testing: all feedback appreciated

PROFESSIONAL WORK EXPERIENCE

EMM Consultant - Python, Bash, Java   **2017 - 2022**
Munvo Solutions Inc., Montreal, QC
- Delivered time-sensitive Proof-of-Concept software for valuable clients.
- Automated deployment and testing processes for large backend systems and databases.
- Implemented custom monitoring tools for tracking effectiveness and uptime of digital marketing campaigns.
- Communicated effectively across multiple teams, organizations, languages, and time zones.
- Gained working knowledge of modern digital marketing techniques.

Web Developer - C#, ASP.NET, CSS, JavaScript   **2015 - 2016**
Silent Partner Software, Montreal, QC
- Planned and designed user interface for a browser-based donation management service.
- Shipped responsive design features in an evolving product.
- Wrote back-end code in C# for security and retrieval of data from a MySQL database.
- Acquired invaluable experience with MVC design patterns.

SKILLS

Software experience: Python, Javascript, Typescript , Vue, SCSS, SQL, Hadoop, Unix, GDScript, C#, Java, SFMC Email Studio, HCL Unica.
